

Mohd Junaidi Bin Jusoh

Software Engineer | Cyberjaya, Malaysia

Email: [mjunaaidijusoh-82@yahoo.com](mailto:mjunaidijusoh-82@yahoo.com) | Portfolio: mjunaidi.github.io | Phone: +60 13-350 3789

Summary

Experienced and results-driven Software Engineer with 18 years of experience in software development, specializing in Java, Spring Boot, and RESTful APIs. Proven expertise in secure software development, authentication systems, microservices, and scalable financial systems. Currently working in the FinTech sector with a strong track record of delivering high-quality solutions for payment systems, merchant portals, and revenue configurations. An MBA candidate (graduating July 2025) with a growing focus on technical leadership and strategic development in enterprise systems.

Skills

Programming Languages:	Java, SQL, PHP, JavaScript
Frameworks:	Spring Boot, Hibernate, React, Angular, Vue, Bootstrap, JSF
IAM Protocols:	OAuth 2.0, SAML, OIDC, LDAP
Tools:	Jira, Confluence, CircleCI, Jenkins, GitLab CI/CD, TeamCity
Databases:	PostgreSQL, MySQL, DB2, Oracle, SQL Server
Cloud:	AWS (S3, SQS), Kafka, RabbitMQ
Containerization:	Docker, Kubernetes
Methodologies:	Agile (Scrum), DevSecOps
Security:	Authentication, Authorization, OWASP, CSRF, SSO, PCI DSS

Professional Experience

Software Engineer

Ezypay Pty Ltd | Aug 2020 – Present | Kuala Lumpur

- Designed and implemented secure features using Java, Spring Boot, and OAuth2 for merchant portal systems.
- Developed and maintained RESTful APIs for payment scheduling, transaction processing, and revenue share configuration.
- Led the enhancement of internal tools for Fee Revenue Share (FRS) and merchant onboarding.
- Contributed to technical design discussions and sprint planning under Agile methodology.
- Optimized existing services for scalability and performance across multi-tenant environments.
- Collaborated with cross-functional teams including DevOps, QA, and Product Managers.
- Contributed to the integration of new E-Wallet payment methods for Thailand, Indonesia, and Philippines, enabling seamless cross-border support for merchants.

Software Engineer

Pollen Tech Pte Ltd | Mar 2019 – Aug 2020 | Singapore

- Developed full-stack web applications using Java (Spring Boot) and JavaScript frameworks (React).
- Designed scalable backend services and APIs to support business operations.
- Built front-end components and user interfaces for various B2B platforms.
- Worked closely with product teams to deliver features in an Agile environment.
- Website: <https://www.pollen.tech>

Senior Software Engineer

Mercedes-Benz (Malaysia) | Jun 2015 – Feb 2019 | Kinrara, Selangor

- Worked directly with Daimler TSS Germany and coordinated with teams from Germany and China.
- Developed and maintained multiple full stack applications (Java, Spring Boot, React, Angular, JSF).
- Created custom components, maintained legacy systems, and modernized to newer technologies.
- Worked with PostgreSQL and DB2 databases; deployed using Docker and Kubernetes.
- Practiced Agile Scrum methodology.

Software Engineer

BT (Malaysia) | Sep 2014 – Jun 2015 | Bangsar South, Kuala Lumpur

- Maintained batch processing applications transferring data across systems.
- Upgraded legacy systems to modern architectures (REST-API, Web UI).
- Designed and implemented service change requests.
- Practiced continuous integration with TeamCity.

Java Developer

Atex (Asia) Sdn Bhd | Sep 2011 – May 2014 | Damansara Heights, Kuala Lumpur

- Involved in core development of Atex Web CMS.
- Led a demo project used for conferences and sales kits.
- Developed a Mobile App Kit plugin for CMS.
- Managed CI/CD processes using Jenkins.
- Key projects: Agderposten, London24, Ipswich Star, Great British Life, Irish Times, Thompson, New Straits Times.
- **Reason for leaving: Retrenchment.**

Analyst Programmer

Commerce Dot Com Sdn Bhd | Apr 2009 – Aug 2011 | Petaling Jaya, Selangor

- Developed web-based Java applications (J2EE).
- Created PL/SQL queries to improve data efficiency.
- Developed front-end functionalities using JavaScript and AJAX.
- Key projects: eCat 2.0, Supplier Registration System, eBid, ePerolehan.

Software Engineer

FlairWork Technologies Sdn Bhd | Aug 2008 – Mar 2009 | Kuala Lumpur

- Developed an in-house PHP, MySQL, AJAX framework.
- Key projects: British American Tobacco's Organization Chart System, SPA Perak Web Portal, MAS Risk Monitoring System, English-Malay Online Dictionary.

Internship

Infosys Technologies Limited | May – Jul 2008 | Bangalore, India

- Trained on Enterprise Application Development (Java, Oracle).
- Scored straight A's in all training modules (Top 2%).

Software Developer

Skali Web Services Sdn Bhd | Jul 2007 – Apr 2008 | Sentul, Kuala Lumpur

- Led portal development projects for 450+ government agencies.
 - Developed systems using Java, PostgreSQL, PHP, Joomla, Ajax.
-

Education

Master of Business Administration (MBA)

Universiti Putra Malaysia (UPM) | Expected Completion: July 2025

Bachelor of Science (Intelligent Systems)

Universiti Teknologi Mara (UiTM) | 2007

Diploma in Computer Science

Universiti Teknologi Mara (UiTM) | 2005

Certifications

- PCI Compliance Refresher FY25, 2025
- OWASP Top 10 FY25, 2025
- PCI Compliance Refresher FY24, 2024
- OWASP Top 10 FY24, 2024
- PCI Compliance Refresher FY23, 2023
- OWASP Top 10 FY23, 2023
- PCI Compliance Refresher FY22, 2022
- OWASP Top 10 Web Application Vulnerabilities Course, 2022
- Annual PCI Compliance, 2021
- Microsoft: INF246x Enterprise Security Fundamentals (edX), 2018
- Application Security and Secure Coding Training (Codebashing by Checkmarx), 2018
- Microsoft Certified Application Developer Certification Program (MCAD & MCP), 2007
