

Mohd Junaidi Bin Jusoh

Software Engineer | Cyberjaya, Malaysia

Email: mjunaidijusoh-82@yahoo.com | Portfolio: mjunaidi.github.io | Phone: +60 13-350 3789

Summary

Software Engineer with a strong background in Java development, particularly in Fintech and Identity & Access Management (IAM) systems. Skilled in OAuth2.0, SSO, and secure backend development, with experience in cloud integration, Agile environments, and secure coding practices. Committed to delivering scalable and reliable applications that support business growth and enhance user security.

Skills

- Programming Languages: Java, SQL, PHP, JavaScript
 - Frameworks: Spring Boot, Hibernate, React, Angular, Vue, Bootstrap, JSF
 - IAM Protocols: OAuth 2.0, SAML, OIDC, LDAP
 - Tools: Jira, Confluence, CircleCI, Jenkins, GitLab CI/CD, TeamCity
 - Databases: PostgreSQL, MySQL, DB2
 - Cloud: AWS (basic), Azure (basic)
 - Containerization: Docker, Kubernetes
 - Methodologies: Agile (Scrum), DevSecOps
 - Security: OWASP Top 10 Compliance, Secure Code Review, Payment Card Industry Data Security Standard (PCI DSS)
-

Professional Experience

Software Engineer

Ezypay Pty Ltd | Aug 2020 – Present | Kuala Lumpur

- Developed and maintained Java-based backend services, achieving **99.9% system uptime** and **25% faster API response times**.
- Designed and implemented **OAuth 2.0 and SSO solutions** across multiple portals, improving authentication reliability.
- Integrated **IAM protocols** (OIDC, SAML, LDAP) into core digital services.
- Conducted secure code reviews and threat modeling to ensure compliance with **OWASP Top 10** standards.
- Automated build and deployment pipelines with **CircleCI**, cutting release time.
- Migrated legacy Java modules to **microservices architecture**, boosting scalability and system maintenance.
- Collaborated with cross-functional teams to deliver **IAM features** within **agile sprint timelines**.

Software Engineer

Pollen Tech Pte Ltd | Mar 2019 – Aug 2020 | Singapore

- Developed full-stack web applications using Java (Spring Boot) and JavaScript frameworks (React).
- Designed scalable backend services and APIs to support business operations.
- Built front-end components and user interfaces for various B2B platforms.
- Worked closely with product teams to deliver features in an Agile environment.
- Website: <https://www.pollen.tech>

Senior Software Engineer

Mercedes-Benz (Malaysia) | Jun 2015 – Feb 2019 | Kinrara, Selangor

- Worked directly with Daimler TSS Germany and coordinated with teams from Germany and China.
- Developed and maintained multiple full stack applications (Java, Spring Boot, React, Angular, JSF).
- Created custom components, maintained legacy systems, and modernized to newer technologies.
- Worked with PostgreSQL and DB2 databases; deployed using Docker and Kubernetes.
- Practiced Agile Scrum methodology.

Software Engineer

BT (Malaysia) | Sep 2014 – Jun 2015 | Bangsar South, Kuala Lumpur

- Maintained batch processing applications transferring data across systems.
- Upgraded legacy systems to modern architectures (REST-API, Web UI).
- Designed and implemented service change requests.
- Practiced continuous integration with TeamCity.

Java Developer

Atex (Asia) Sdn Bhd | Sep 2011 – May 2014 | Damansara Heights, Kuala Lumpur

- Involved in core development of Atex Web CMS.
- Led a demo project used for conferences and sales kits.
- Developed a Mobile App Kit plugin for CMS.
- Managed CI/CD processes using Jenkins.
- Key projects: Agderposten, London24, Ipswich Star, Great British Life, Irish Times, Thompson, New Straits Times.
- **Reason for leaving: Retrenchment.**

Analyst Programmer

Commerce Dot Com Sdn Bhd | Apr 2009 – Aug 2011 | Petaling Jaya, Selangor

- Developed web-based Java applications (J2EE).
- Created PL/SQL queries to improve data efficiency.
- Developed front-end functionalities using JavaScript and AJAX.
- Key projects: eCat 2.0, Supplier Registration System, eBid, ePerolehan.

Software Engineer

FlairWork Technologies Sdn Bhd | Aug 2008 – Mar 2009 | Kuala Lumpur

- Developed an in-house PHP, MySQL, AJAX framework.
- Key projects: British American Tobacco's Organization Chart System, SPA Perak Web Portal, MAS Risk Monitoring System, English-Malay Online Dictionary.

Internship

Infosys Technologies Limited | May – Jul 2008 | Bangalore, India

- Trained on Enterprise Application Development (Java, Oracle).
- Scored straight A's in all training modules (Top 2%).

Software Developer

Skali Web Services Sdn Bhd | Jul 2007 – Apr 2008 | Sentul, Kuala Lumpur

- Led portal development projects for 450+ government agencies.
 - Developed systems using Java, PostgreSQL, PHP, Joomla, Ajax.
-

Education

Master of Business Administration (MBA) *(In Progress)*

Universiti Putra Malaysia (UPM) | Expected June 2025

Bachelor of Software Engineering

Universiti Teknologi Mara (UiTM) | 2007

Diploma in Computer Science

Universiti Teknologi Mara (UiTM) | 2005

Certifications

- OWASP Top 10 FY25, 2025
 - PCI Compliance Refresher FY24, 2024
 - OWASP Top 10 FY24, 2024
 - PCI Compliance Refresher FY23, 2023
 - OWASP Top 10 FY23, 2023
 - PCI Compliance Refresher FY22, 2022
 - OWASP Top 10 Web Application Vulnerabilities Course, 2022
 - Annual PCI Compliance, 2021
 - Microsoft: INF246x Enterprise Security Fundamentals (edX), 2018
 - Application Security and Secure Coding Training (Codebashing by Checkmarx), 2018
 - Microsoft Certified Application Developer Certification Program (MCAD & MCP), 2007
-

Languages

- English
 - Malay (Native)
